Type: logic

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which has  
a letter without curves  
(eg V, T, Y etc)

Type: logic

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which has  
a letter which comes  
after the last player cell  
or a number greater  
than the last player cell

Type: logic

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which has  
a letter which comes  
before the last player  
cell or a number less  
than the last player cell

Type: logic

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is on  
the same vertical line  
from the last player's  
cell

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is on  
the same horizontal line  
from the last player's  
cell

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is on  
the same diagonal line  
from the last player's  
cell

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is  
between the last  
player's cell and your  
last cell

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is on  
any position above the  
last player's cell (not on  
the same horizontal  
line)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is on any position below the last player's cell (not on the same horizontal line)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which has at least 2 letters as neighbours (vertical or horizontal)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which has at least 2 numbers as neighbours (vertical or horizontal)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is next to an odd number (vertical or horizontal)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Select a cell which is next to an even number (vertical or horizontal)

Type: position

© Theodoros Ploumis 2021 - All rights reserved.

Draw a vertical line every 3 turns

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw a horizontal line every 3 turns

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw a diagonal line every 3 turns

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw squares shapes  
(Cells are edges)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw equilateral  
triangles shapes (Cells  
are edges)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw rhombus shapes  
with equal sides (Cells  
are edges)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw orthogonal shapes  
(not square, Cells are  
edges)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw squares shapes  
(filled, must be  
completed by 4 turns)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.

Draw equilateral triangle  
shapes (filled, must be  
completed by 4 turns)

Type: draw

© Theodoros Ploumis 2021 - All rights reserved.
